FAKE ABORTION CLINICS

AKA "CRISIS PREGNANCY CENTERS"

APRIL 2025

WHAT IS A CPC?

"Crisis Pregnancy Centers" (CPCs) are fake clinics that try to lure patients in by advertising free services like ultrasounds and pregnancy tests.

Inside, anti-abortion staff will shame, spread misinformation, pressure, and lie to clients. Their goal is to convince the person to not have an abortion or to stall them past local abortion limits.

Very often, CPCs are not actually licensed to provide health care and do not have any licensed medical staff on site. As such, they do not have to comply with HIPAA laws, which is a privacy concern.

CPCs will often strategically establish themselves close or adjacent to real abortion clinics. Sometimes they'll even rent space in the same building as a real clinic.
