WHAT IS A CPC?

KNOWN AS "CRISIS PREGNANCY
CENTERS "CPCS":

CPCS are fake clinics that try to lure patients in with advertising free medical services like ultrasounds and pregnancy tests. Once the person is inside these anti abortion "clinics", these anti abortion zealots will shame, provide misinformation, pressure, lie, and stall the person about their reproductive health decision with the intention to convince the person to not have the abortion or push them past when its legal to have an abortion.

Very often these CPCS are not actually licensed to provide health care and wont have any actual licensed medical staff on site. CPCS are evil and should be exposed!

Shown above: a CPC in NYC advertising free pregnancy tests to lure people in.
